### District Policy and Practice

- Input on strategic plan sent home

- 3 Policies up for feedback right now, one on staff use of facilities. New policy states you need to talk to principal and make a plan for equipment use, use of toilet paper and such.
- Student Attendance Policy every school to have attendance policy— since covid attendance in BC is substantially down, more so in the high school. Studies show if your kid misses 10% of school regularly it makes it harder for the student to graduate. Different than missing some school for family vacation, more missing every Friday etc. Open until September.

## School Success Plan

- Goals: To improve student communication of thinking through justification. (eg. I think "this" because...) Was summarize and justify but have changed wording to fit how students were working.
- Math Tasks vs problems will keep working on this
- Teachers will continue to work on task designs and justify thinking
- Students writing land acknowledgements to help deepen connects to the land
